MATTHEW J. KUKLA

https://mkukla.net ◇ matt.kukla@verizon.net

EDUCATION

University of Maryland awarded May 2022
Mathematics, BSc. *College Park, Maryland, USA*

· Selected for First-Year Innovation and Research Experience (FIRE)

PROFESSIONAL EXPERIENCE

The Math Citadel March 2019 - present
Academic Researcher

· Conduct original research in mathematics, including fuzzy sets/algebras, stochastic geometry, graphical probabilistic models

· Develop software packages:

- Design and implement fuzzy anomaly detection techniques
- Optimize numerical methods

· Contribute to technical articles and professional lecture material

BlueHalo Labs June 2022 - May 2025
Research Engineer *Rockville, Maryland, USA*

· Researcher in mathematics with a focus on graph theory, automated reasoning, scientific computing.

- Designed, implemented, and deployed novel graph clustering algorithms. Optimized with high-performance linear algebra libraries.
- Developed and integrated signal processing tools
- Constructed systems for knowledge representation and inference across large relational structures

· Wrote research articles, technical reports for delivery to government, academic, and private-sector customers

SKILLS

Programming Languages	C, OCaml, Python, Fortran, Julia, Prolog, Java, MATLAB
Operating Systems	Linux, UNIX (BSD and Solaris), MS-DOS
Tools	Shell scripting, sed, AWK, Git, LaTeX
Libraries	NumPy, SciPy, BLAS, LAPACK
Web	HTML, CSS, OWL, RDF, Gopher, AWS
Databases	SQL, Solr, ElasticSearch, Cypher
Radio	NEC2, GNURadio, SDR

PUBLICATIONS AND PREPRINTS

Logical Limit Laws for Layered Permutations and Related Structures
Joint with Samuel Braunfeld.
*Published, Enumerative Combinatorics and Applications. **2** no. 4. (2021)*

Colored Convex Linear Orders and Logical Limit Laws
Preprint. (2021)

Rings of Typed Ordered Fuzzy Numbers
Joint with Rachel Traylor.
Preprint, arXiv:2010.07764. (2020)

SELECTED TALKS

Relational Structures, Logical Limit Laws, and Layered Permutations
Knots in Washington 51, George Washington University (2025)

First-Order Logical Limit Laws, Ordered Structures, and Permutation Classes
Computability & Complexity Seminar, George Washington University (2025)

Double Factorization Systems and Double Fibrations
7th International Conference on Applied Category Theory, University of Oxford (2024)

Double Categorical Limits
The Adjoint School (2024)

Logical Limit Laws for Layered Permutations and Related Structures
Logic Seminar, University of Maryland (2022)

Categorical Mirror Symmetry of Elliptic Curves (two lecture series)
Geometry and Physics Seminar, University of Maryland (2018)

Generalized Calabi-Yau Manifolds
Geometry and Physics Seminar, University of Maryland (2018)

LICENSES AND CERTIFICATIONS

EPA Part 608 Universal Certification July 2025

For service of stationary HVACR equipment and handling of refrigerants.
